

Welcome to the world of Java! In this challenge, we practice printing to stdout.

[Change Theme](#)

Language

Java 7

**Problem**

The code stubs in your editor declare a Solution class and a main method. Complete the main method by copying the two lines of code below and pasting them inside the body of your main method.

```
System.out.println("Hello, World.");
System.out.println("Hello, Java.");
```

Submissions**Input Format**

There is no input for this challenge.

Output Format

You must print two lines of output:

1. Print Hello, World. on the first line.
2. Print Hello, Java. on the second line.

Line: 9 Col: 1

Sample Output

```
Hello, World.
Hello, Java.
```

Leaderboard**Discussions****Editorial**

```
1 public class Solution {
2
3     public static void main(String[] args) {
4         /* Enter your code here. Print output to stdout.
5         Your class should be named Solution. */
6         System.out.println("Hello, World.");
7         System.out.println("Hello, Java.");
8     }
9 }
```
